

<b>Ferrite LTCC Solid Power Inductors</b>	Internal Hitachi Metals Ferrite and LTCC High efficiency and reliability Low profile and low leakage 0.6-1.2mmt	
<b>Antenna Switch Modules (A.S.M) Front End Modules (A.S.M + SAW)</b>	LTCC Based GSM - Dual, Triple, Quad GSM + UMTS - Dual mode SP7T, SP8T, SP9T, SP10T solutions	
<b>WLAN Front End Module</b>	LTCC Based Module - PA + SW + LNA 1T1R, 1T2R, 2T2R, 2T3R 802.11abg 802.11n (MIMO) 802.11bg+Bluetooth	
<b>WiMAX Front End Module</b>	LTCC Based Module - PA + SW + (LNA) 1T2R 2.3GHz, 2.5GHz, 2.5GHz/3.5GHz 2T2R 2.5GHz w/o PA	
<b>LTCC Substrate</b>	High Density Fine Crystalline Ceramics TX Module, Filter & RF Integration Proprietary Hitachi Metal Ceramics	
<b>Ceramic Chip Antennas</b>	Bluetooth, GPS, WLAN Small Footprint Suitable for mobile devices	
<b>Small Isolators &amp; Circulators for Mobile and Interstage</b>	2.0, 2.5, 3, 4, 5, 7mm iDEN, GSM, CDMA, WCDMA, WLAN, WiMAX, SAT, Others 5W & 10W Custom frequency available	
<b>High Power Isolators &amp; Circulators for Infrastructure</b>	10mm to 30mm+, 50W to 200W 400MHz to 3.5GHz Custom Packaging and frequency	
<b>LTCC Discrete</b>	DiPlexers, Couplers, Baluns, Splitters Low Pass and Band Pass Filters Triplexer
